Dear Parents,

Once again the MotherCare family warmly welcomes all the new children and their parents. With Dashain, the most celebrated festival coming to an end, the festive mood has not yet ended as Tihar is knocking at our doors. The children are in the mood of merry making and of course very busy practicing for our Tihar Night program for this evening.

We are heading towards our third term and the children seem to be catching up fine with time as always. The last month has been quite eventful as our Saturn group had gone for a field trip to the Aqua water factory. The children really seemed to have enjoyed their trip.

The two senior group of children, Saturn and Jupiter also went to John Dewey to watch their cultural program which was held on the 4th of October. It was quite an experience for the children to go there in the bus, watching their seniors perform so gracefully was such a pleasure and pride for us.

We would also like to inform you that we’ve had several earthquake drills here in the school campus. We are trying to bring awareness among the staff and the children to stay safe. We have also done some repair work on the wall on the playground.

With the change of season, the weather seems to get tricky at times, so please send your children dressed appropriately. Please do not forget to put a change of clothes in their bags and a pack of tissue and wet wipes it comes very handy.
Please note that the items collected for “Dashain Drive” will be given away to the people concerned during the Tihar program.

The Mothercare family would like to wish you all a very “Happy Tihar” and thank, all the parents for their constant support and co-operation.

Please note that the fee for the third term is now payable. Please refer to the bill sent yesterday.

Thank you

Yours sincerely

Srijana Tamang
